Project No. P-14558-000

KC Lake Hydro LLC;

Notice of Preliminary Permit Application Accepted For Filing and Soliciting Comments,
Motions to Intervene, and Competing Applications

On October 4, 2013, KC Lake Hydro LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the North Hadley Lake Warner Dam Hydropower Project (project) to be located at the outlet of Lake Warner, on the Miller River, near the Town of North Hadley, Hampshire County, Massachusetts. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) the existing 82-foot-long, 15-foot-high, concrete gravity Lake Warner dam; (2) an existing 70-acre impoundment with a normal maximum water surface elevation of 128 feet above mean sea level; (3) a new 30.6-foot-long, 10.4-foot-diameter conduit structure; (4) a new 20-foot-long, 20-foot-wide powerhouse containing a single turbine generator unit with an installed capacity of

100.8 kilowatts; (5) a new 100-foot-long, 21-kilovolt transmission line; and (6) appurtenant facilities. The project would have an estimated average annual energy generation of 500 megawatt-hours. The dam is owned and operated by the Kestrel Land Trust. There are no federal lands associated with the project.
